Jakarta, Indonesia

Informatics student with an interest in programming, web development, and IT systems. Passionate about learning new technologies, solving problems, and improving technical skills through projects and organizational experiences. Able to work individually and in teams, manage time effectively, and adapt quickly to new challenges. Currently seeking internship opportunities to gain hands-on experience and grow in the technology field.

## Education Level

### President University - Indonesia

Sep 2024 - Sep 2027 (Expected)

Undergraduate Informatics, 3.77/4.00

- Collaborated with an 8-member team to develop and showcase the Roblox horror game “Before Satan Catch You” during a university exhibition.

## Organisational Experience

### President University Developer Club - North Cikarang

Nov 2024 - Present

Secretary at President University Developer Club

President University Developer Club (PUDC) is a student community that focuses on developing skills in technology, particularly programming, software development, and IT project management. PUDC actively organizes various activities such as workshops, seminars, company visits, and competitions to support practical learning and build connections between students and industry. The club aims to create a collaborative environment for students to learn, grow, and share knowledge in the field of technology.

- Managed documentation and administrative reports for 10+ organizational meetings and technology-related events.
- Coordinated communication between 4+ divisions and committee members to support seminars and company visits.
- Maintained structured digital archives to improve document accessibility and reporting efficiency for organizational activities.
- Prepared and distributed meeting agendas, invitations, and documentation for 20+ active members and administrators.

### Pathfinder: Company Visit & Seminar - North Cikarang

Jan 2025 - Jul 2025

Secretary at Pathfinder 2025 (President University Developer Club)

- Compiled proposals, reports, and meeting records for multiple event preparation activities and committee meetings.
- Collaborated with division leaders and committees to ensure smooth administrative readiness during event execution.
- Organized and archived important event documents systematically to support accountability and post-event reporting.

### COMPSPHERE 2025 - North Cikarang

Feb 2025 - Oct 2025

Member of Guard X Medic 2025

Served as a Guard and Medical Division Member in COMPSPHERE 2025. Responsible for supporting event safety and assisting in basic medical preparedness to ensure the well-being of participants during the event.

Worked collaboratively with the organizing team to maintain a safe environment, respond to potential health concerns, and support the smooth execution of event activities.

- Assisted in maintaining safety and event coordination for 100+ participants.
- Supported basic medical preparedness and collaborated with organizing committees during event operations.
- Contributed to creating a safe and well-organized environment throughout event activities.

### CSGO 2026 - North Cikarang

Nov 2025 - Feb 2026

Member of Guard 2026

- Assisted in maintaining participant safety and event coordination during a faculty-scale event organized by PUFA Computer Science.
- Collaborated with committees and organizers to support smooth event operations and participant management.
- Contributed to creating a safe and organized environment throughout event activities.
